

Road to peace

(music + lyrics by Olivia Trummer)

When I see clouds in the sky they always seem at ease
Look how they're traveling on their road to peace
Out of a million ways to cross the sky they always find their own

Watching the wind and the waves play their graceful game
Oh such a genuine dance without regret, without an aim
Out of a million ways to move they always find the perfect groove

Can't help but release a natural masterpiece
Their soul knows the code to pursue their own road to peace

I wanna know what it is that makes me hesitate
I wonder why I allow it to be complicated
Each soul knows the code
Each soul knows the code to pursue it's own road
Each soul knows the code to pursue it's own road to peace

Trying so hard to not get lost, trying so hard to please
But even if I wanted to I couldn't leave my road to peace
Out of a million ways to be I find the one that sets me free

Each soul knows the code
Each soul knows the code to pursue it's own road
Each soul knows the code to pursue it's own road to peace

(from the album „For You“)
