

Undress Me

(music + lyrics by Olivia Trummer)

I know that we've just met a little while ago
And if it's fortune or regret only the time will show
Mama said be sure before you give your heart
away

But right from the start I couldn't help but care
And something in my heart told me that love is in the air
Mama said be sure before you give your heart
but

You've already undressed me with your smile
and started to beguile my heart
Despite all good advice I must confess
my wish that you will never cease to
Undress me with your love
Undress me with your love
Undress me with your loving hands

(from the album „For You“)
