

Embracing

(Music + lyrics by Olivia Trummer)

I'm lost in the clouds sometimes
Intrigued by their effortless rhymes
Eternal swell of shifting shape
Let me escape
And tell me how to embrace the clouds
and make them stay

They're changing again and again
It seems like an endless refrain
While fading
their quiet song lingers on
And tells me how to embrace the clouds
and make them stay before they're gone

Sometimes when I look into your eyes
We're flying in cloudless skies
Eternal swell of shifting shape
Let us escape
Embracing you is a silent way to say
Embracing you is a silent way to say
Embracing you is a silent way to say
I'd like to stay with you
