

## **Fly Now**

(music + lyrics by Olivia Trummer)

Since you don't know how you've got here  
Don't try to find your way back down  
Let your home be where you touch the ground  
Don't try to navigate your heart  
Enjoy the view  
despite the haze that's in your eyes  
Enjoy the view  
and you will come to realize  
You've climbed a mountain top

Gently the clouds start to sail away  
Revealing skies without a sound  
You are amazed, you are hypnotized  
So high the sky, so far the ground  
You know it's time  
relieve your heart let go your fear  
Be brave and let the echoes  
tell you why you're here  
You've climbed a mountain top  
You're ready to fly now
