

Gotta miss someone

(music + lyrics by Olivia Trummer)

What you do to me is easy to describe
with words that every kitty cat would surely understand
What you do to me is expressed in every sigh
But I will try to put it more discreetly

What you do to me, call it paradise or hell
But not the kind of which the ordinary organ pipes could tell
What you do to me is expressed in every sigh
But I will try to put it more concretely

Seems like you gotta miss someone to be complete
Seems like you gotta miss someone to be complete
Seems like you gotta miss someone to be complete
