

## Precious Silence

(music + lyrics by Olivia Trummer)

We walked in the streets of Paris  
Admiring the trees with yellow leaves  
We walked underneath  
Bridges built to change our lives  
Built to change our lives  
Built to change our lives  
Built to change our lives

Though we were strolling at mellow speed  
It felt as if falling like a seed  
Embracing the future's blossoms  
Knowing home will be ahead  
Home will be ahead  
Home will be ahead  
We're heading home

Precious silence, talking to me  
Saying that all that mattered would be to know  
That I love you

Precious silence I heard  
Precious silence I heard  
Precious silence I heard  
Precious silence I heard
